

Forensic Accounting and Litigation Support

SLBiggs is a recognized expert in matters of litigation, forensic accounting, insolvency, and dispute resolution. Financial institutions, law firms, government agencies, and others regularly retain the Firm to provide investigative support in adversarial matters.

SLBiggs' multidisciplinary team of CPAs, Attorneys, Certified Fraud, Valuation, and Financial Forensic Examiners has over 100 years combined experience providing accounting and consulting services within an adversarial context. This depth of experience effectuates an investigative intuitiveness that allows us to quickly pinpoint key issues, concretely analyze data, and effectively communicate complex findings in a clear, straightforward manner.

At SLBiggs, we understand the critical importance of seeking out all relevant information, processing it using a detailed approach, and expertly presenting our findings to achieve a positive outcome for our clients. We work closely with our clients throughout the entire process of collecting, analyzing, and evaluating evidential materials to produce forthright, compelling reports, and expert testimony.

Our team of experienced professionals is especially skilled at financial data analysis, tracing funds and uncovering hidden or misappropriated assets, exposing bankruptcy fraud, identifying GAAP violations, damage assessment, regression analysis, and analyzing a wide range of other financially-oriented matters. Our highly responsive and efficient service, along with our unparalleled expertise, has earned SLBiggs a reputation as one of the leading accounting practices in this field. In every case we apply our specialized knowledge to identify practical solutions to complex problems in order to provide substantive, cost-effective results.
