

Types of Reviews We Perform

- **System Reviews**

Evaluation of a firm's quality management system for assurance practices.

- **Engagement Reviews**

Review of selected engagements for firms that do not perform audits under the AICPA standards.

Why Firms Choose SingerLewak

- Independent validation of audit quality and quality management systems.
- Practical recommendations focused on continuous improvement, not box checking.
- Reviewers with deep technical experience and regulatory insight.
- Support that strengthens confidence with boards, lenders, regulators, and referral partners.

What to Expect from the Process

- Nationally recognized expertise with the FASB and AICPA.
- Secure document exchange and engagement selection.
- On-site or remote fieldwork.
- Draft findings and discussion with leadership.
- Final report submission and response support.

Peer Review Services that Strengthen Audit Quality and Build Confidence

SOX, Internal Audit & Risk Services

SingerLewak delivers independent peer reviews designed to help CPA firms meet AICPA requirements, improve quality management systems, and enhance credibility with regulators, lenders, and clients. Our experienced reviewers provide practical, actionable insight, not just a compliance report.

The AICPA Peer Review Program is a nationally recognized process which can independent CPA firms evaluate another firm's system of quality management or selected engagements. Most enrolled firms undergo review on a three-year cycle, depending on the nature of their assurance practice.
