Forensic Accounting and Litigation Support

Financial Clarity in Complex Disputes

SLBiggs, A Division of SingerLewak is a recognized expert in litigation, forensic accounting, insolvency, and dispute resolution. Financial institutions, law firms, government agencies, trustees, and other stakeholders regularly retain our team to investigate complex financial matters, analyze evidence, and provide objective, defensible conclusions. We help clients navigate complex disputes by identifying key issues, developing practical solutions, and delivering substantive, cost-effective results.

Our multidisciplinary team of CPAs, attorneys, and Certified Financial Forensic examiners brings more than 100 years of combined experience assisting clients in adversarial and high-stakes matters. We work closely with counsel and decision-makers throughout the investigative process—from information gathering and analysis through expert reporting and testimony—translating complex financial issues into clear, actionable findings.

Whether uncovering concealed assets, quantifying damages, or investigating fraud, SLBiggs provides the technical expertise, responsiveness, and credibility necessary to support informed decision-making and successful case outcomes.
